BridgeMAXX Offers Quality Internet to Residents of Rushville

RUSHVILLE, INDIANA – FEBRUARY 18, 2015 – BridgeMAXX is proud to announce the expansion of internet service to the town of Rushville. Equipment has been placed off the town's two water towers, which allows the company to provide high speed internet (2Mb-8Mb) to residents. Speed packages start at just \$34.95 per month, with no additional taxes or fees. Customers pay exactly what they are quoted, and are not required to sign contracts or long term commitments. BridgeMAXX data is completely unlimited, and customers can cancel at any time.

BridgeMAXX has been serving Indiana since 2005 with high speed internet access. The company is dedicated to providing their subscribers with quality, affordable internet without data limits. BridgeMAXX strives to service communities where internet options are limited but also be a solid corporate citizen to that community. BridgeMAXX believes in the small business environment, and is honored to be a member of the Richmond Chamber of Commerce. As an integral part of the towns we serve, BridgeMAXX is excited to partner with the residents of Rushville to begin a new relationship in the community that extends beyond the computer. For more information, contact Wallace Kanney: [1-888-295-3424 extension 221](tel:1-888-295-3424).
